Javier Coira

Software ronin (Chile)

Former project leader in a *Big Four* and ex-CTO of a HR startup until its acquisition

Gorka Puente

Product ronin (Spain)

His startup was acquired by a top marketplace vendor, where he was later group product manager

Toshi Sugiyama

Business Development ronin (Japan)

Go2Group Japan-APAC general manager during six years

A stylized, colorful illustration of a cityscape. The background is a light blue sky with a few white clouds. In the foreground, there are several buildings of various colors and shapes, including a tall blue building, a purple building, and a white building with blue windows. There are also green trees and brown trees. Two strings of white paper lanterns are hanging across the top of the scene. One string is orange and the other is blue. Two red lanterns are hanging from the blue string. A purple rectangular box is overlaid on the scene, containing the text 'Jira as Central Hub'.

Jira Work Management

Switching context has a cost

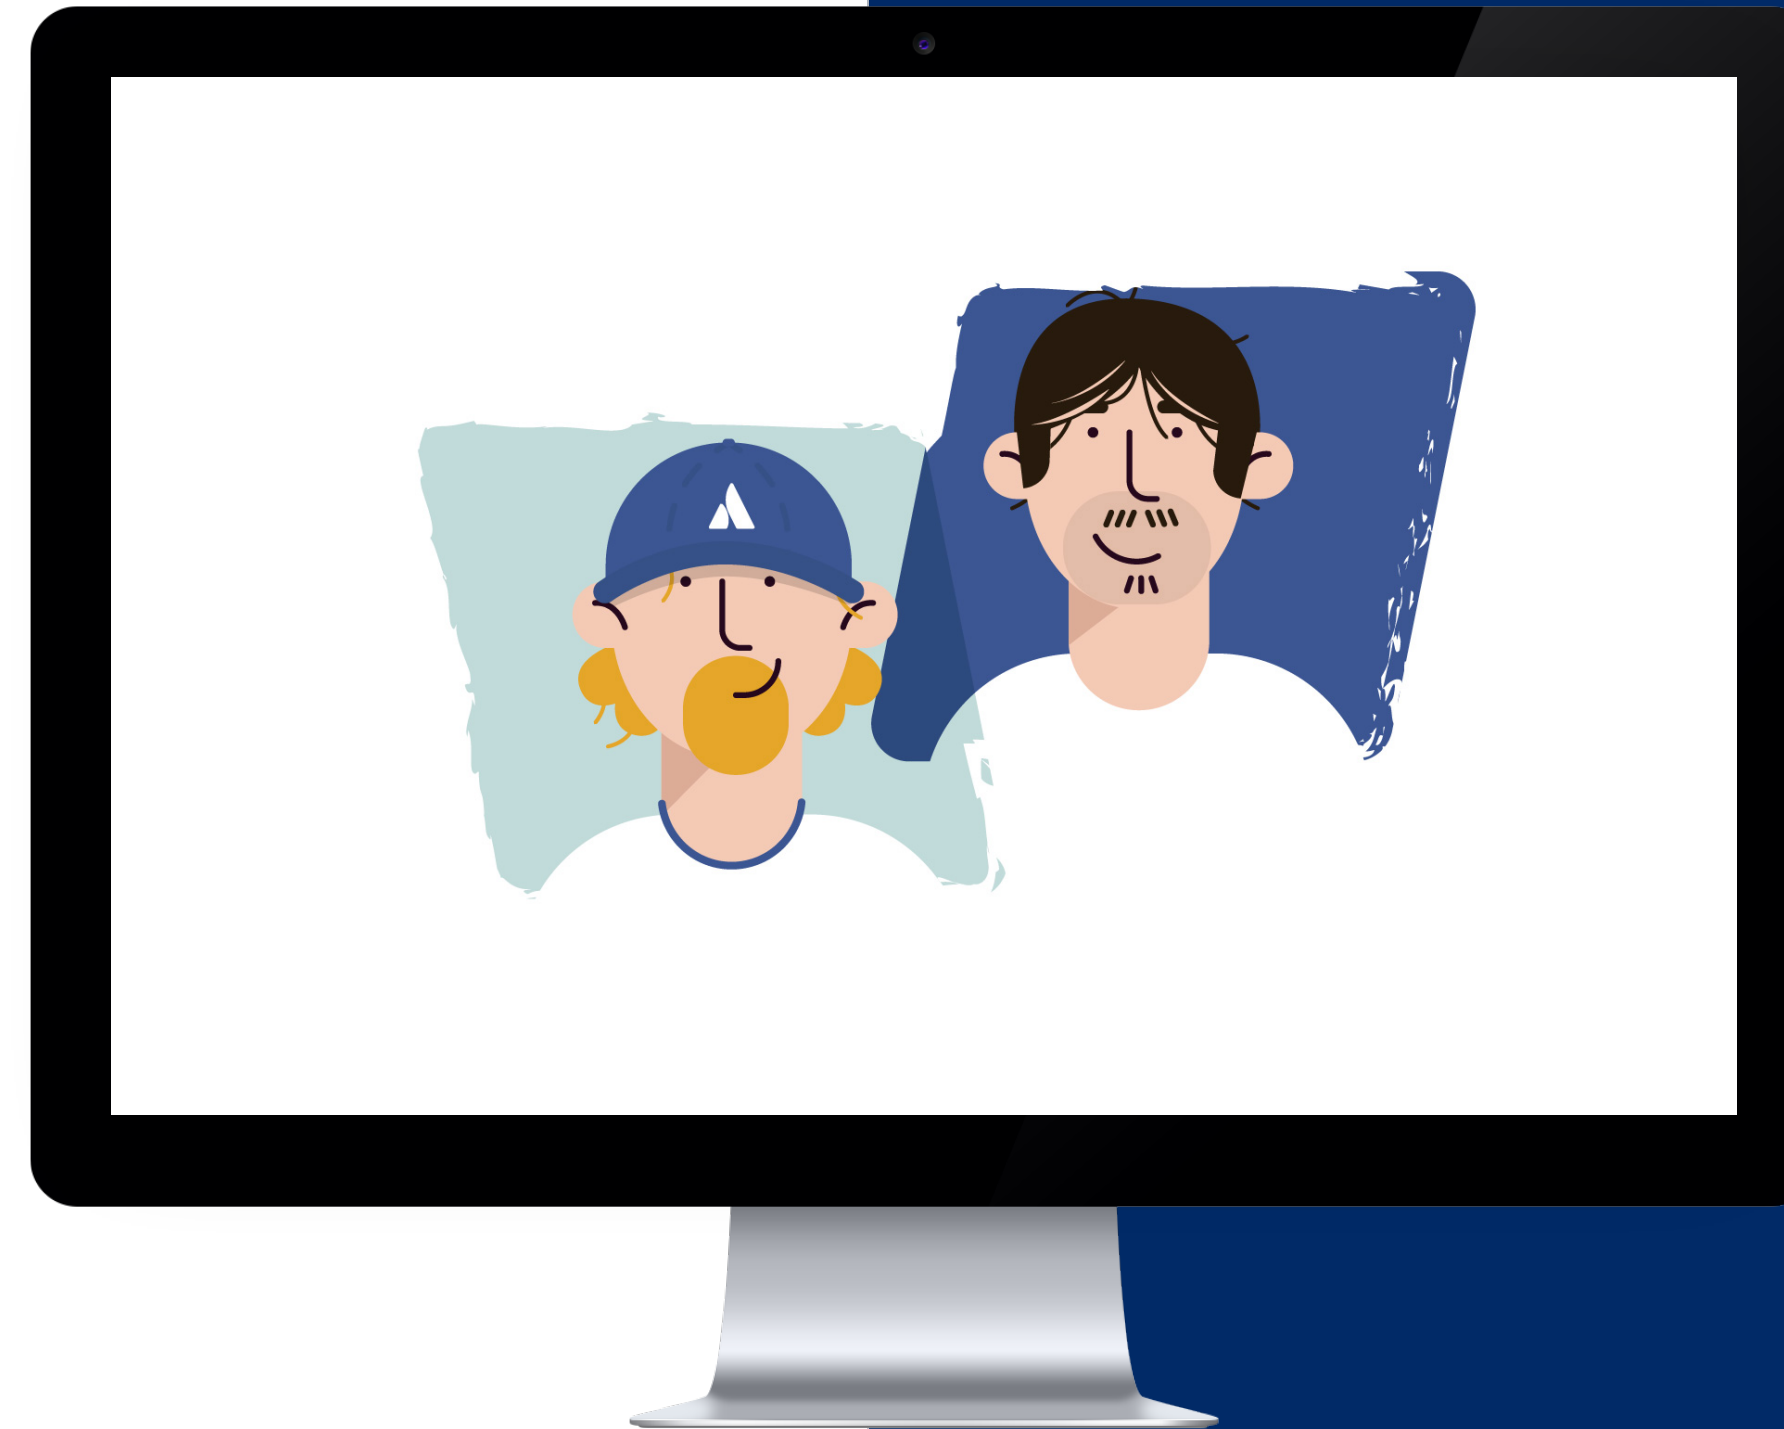

Reimmersion time is an extra effort to complete the task after an interruption

- ✓ Interrupted people experience: Higher workload, more stress, higher frustration, more time pressure, and effort [3]
- ✓ Reimmersion time for knowledge workers varies from [1,2,4,5]

+20 minutes

to

+1-2 hours

Potential solutions

Plain Jira

If you don't value your
time

Jira dashboards

Enough if you don't do
an intensive use of Jira
and other products

Third-party apps

Several alternatives

RoninPixels

Jira dashboards

Unable to share publicly

Cannot connect with other Jira instances

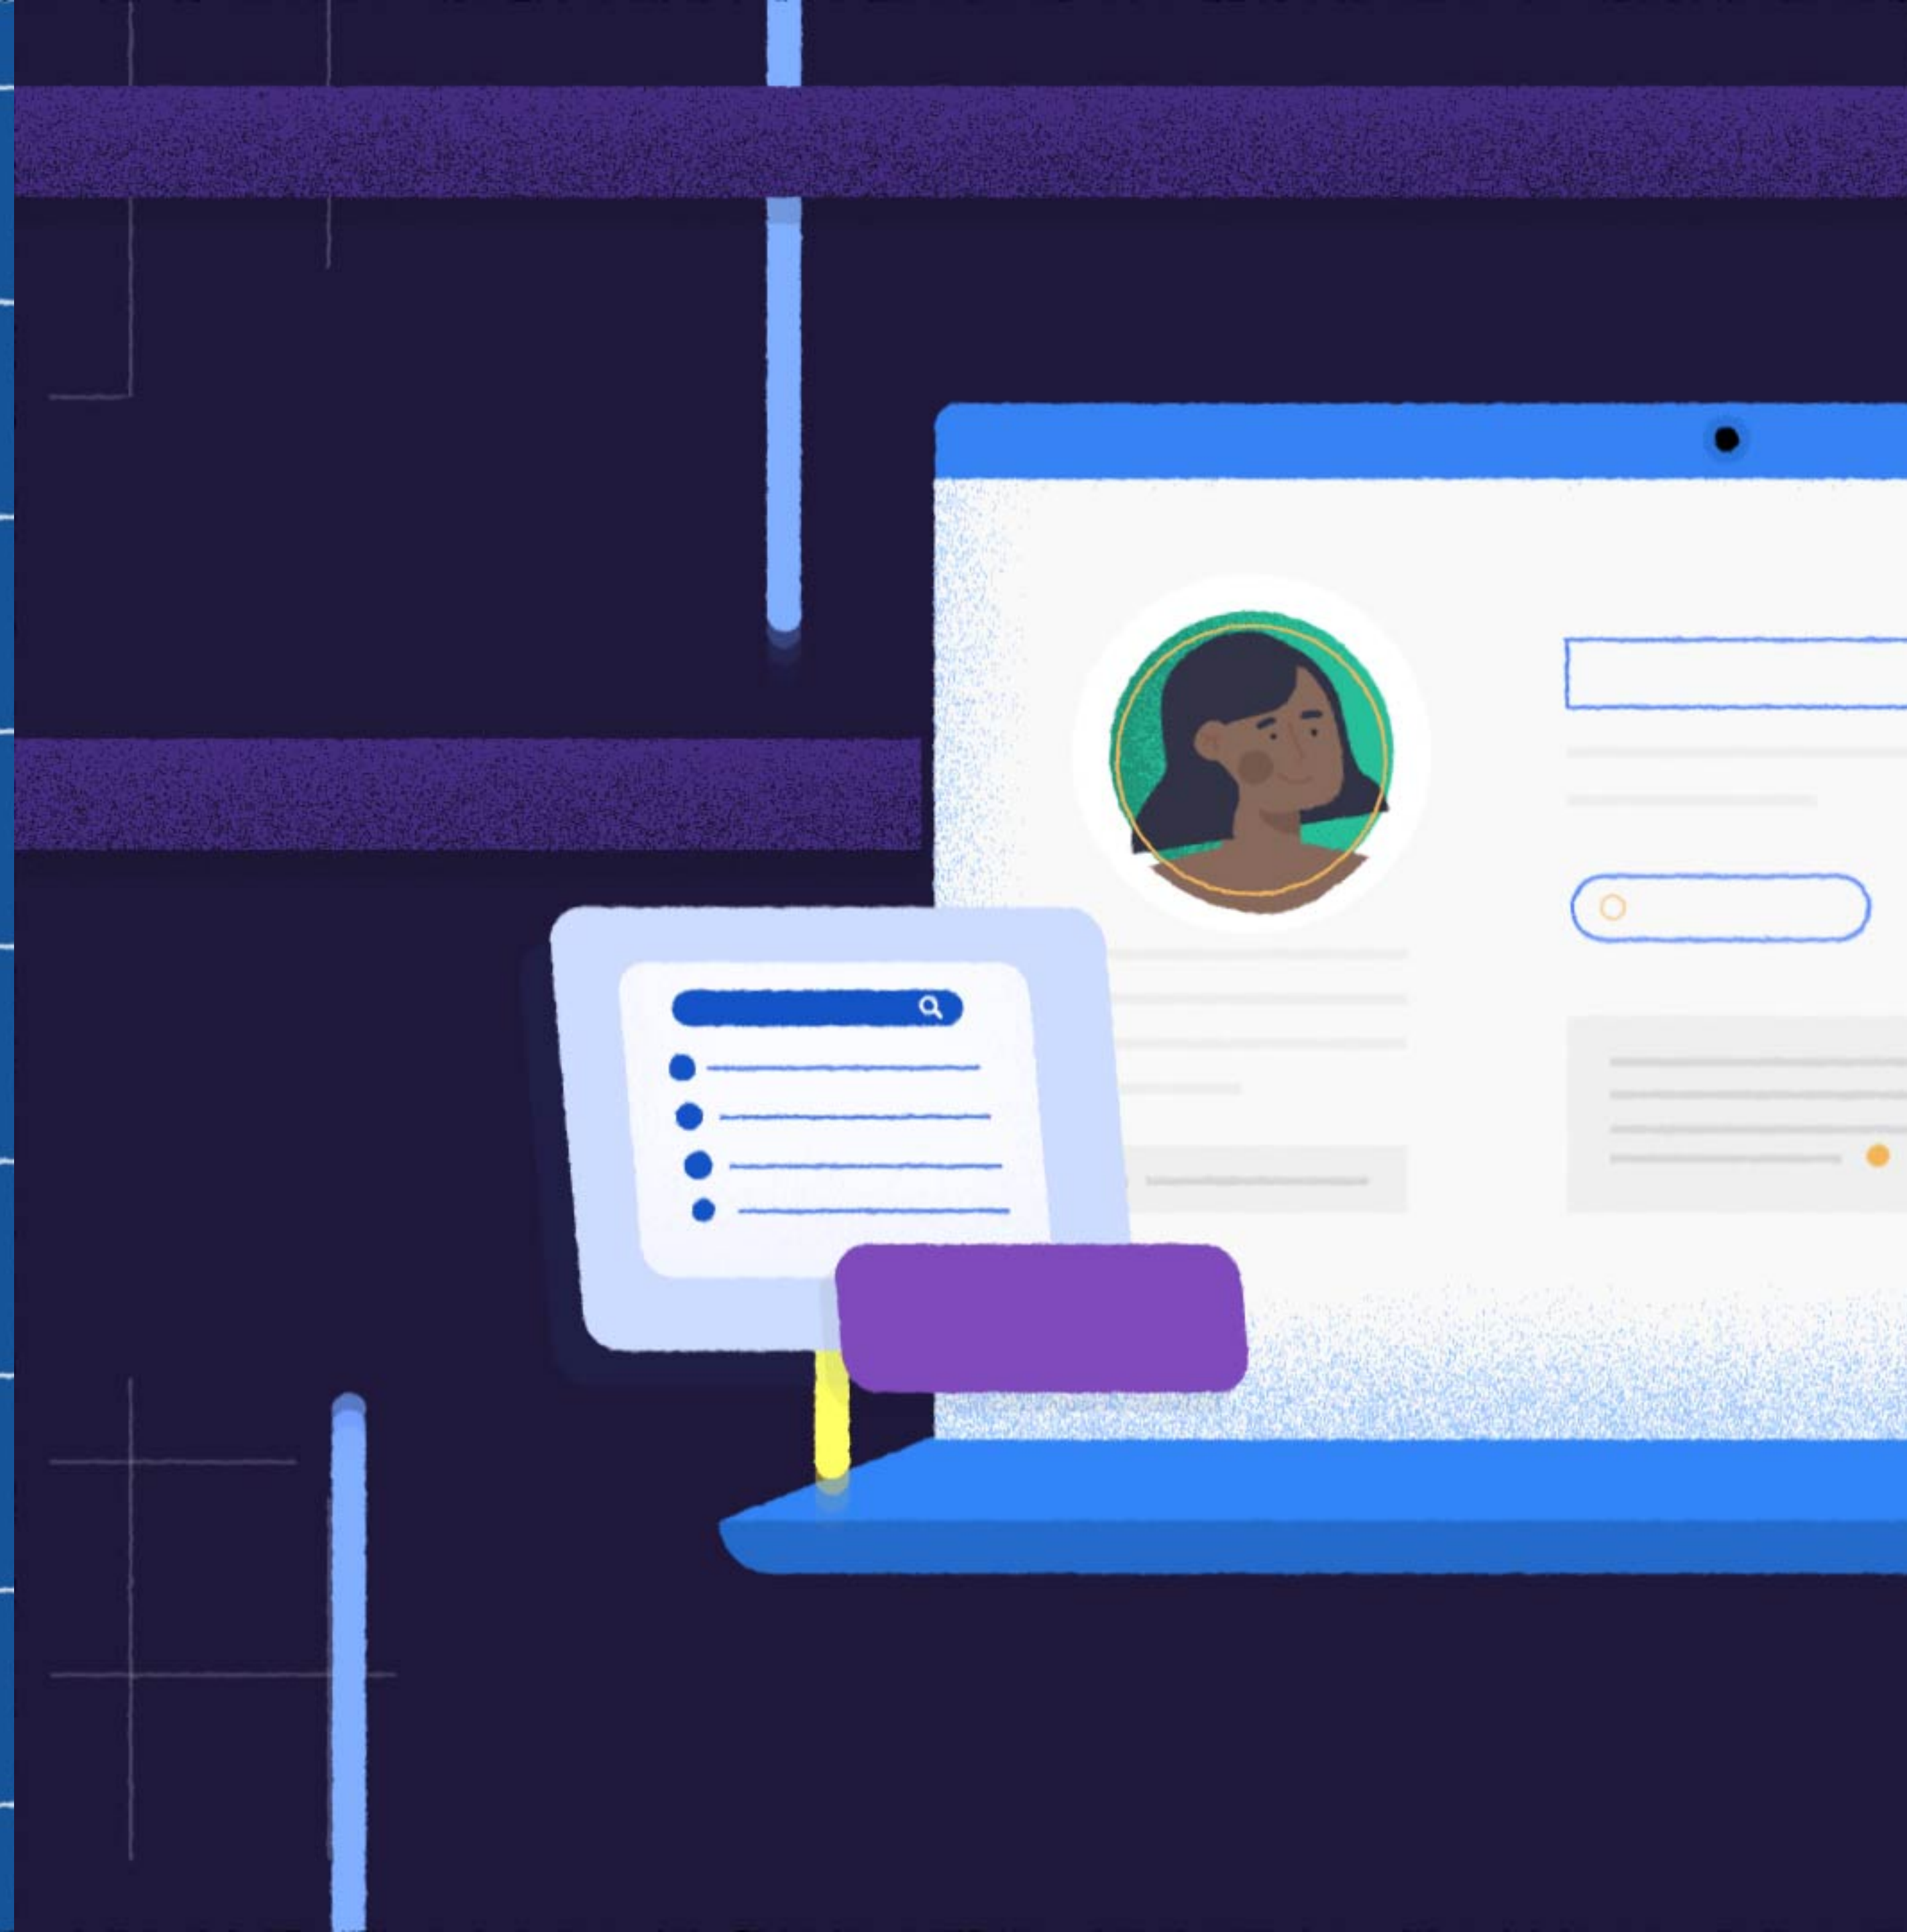

No powerful custom charts

No pre-defined templates

Not enough metrics

Lack of integrations

Old gadgets

RoninPixels

Third-party apps

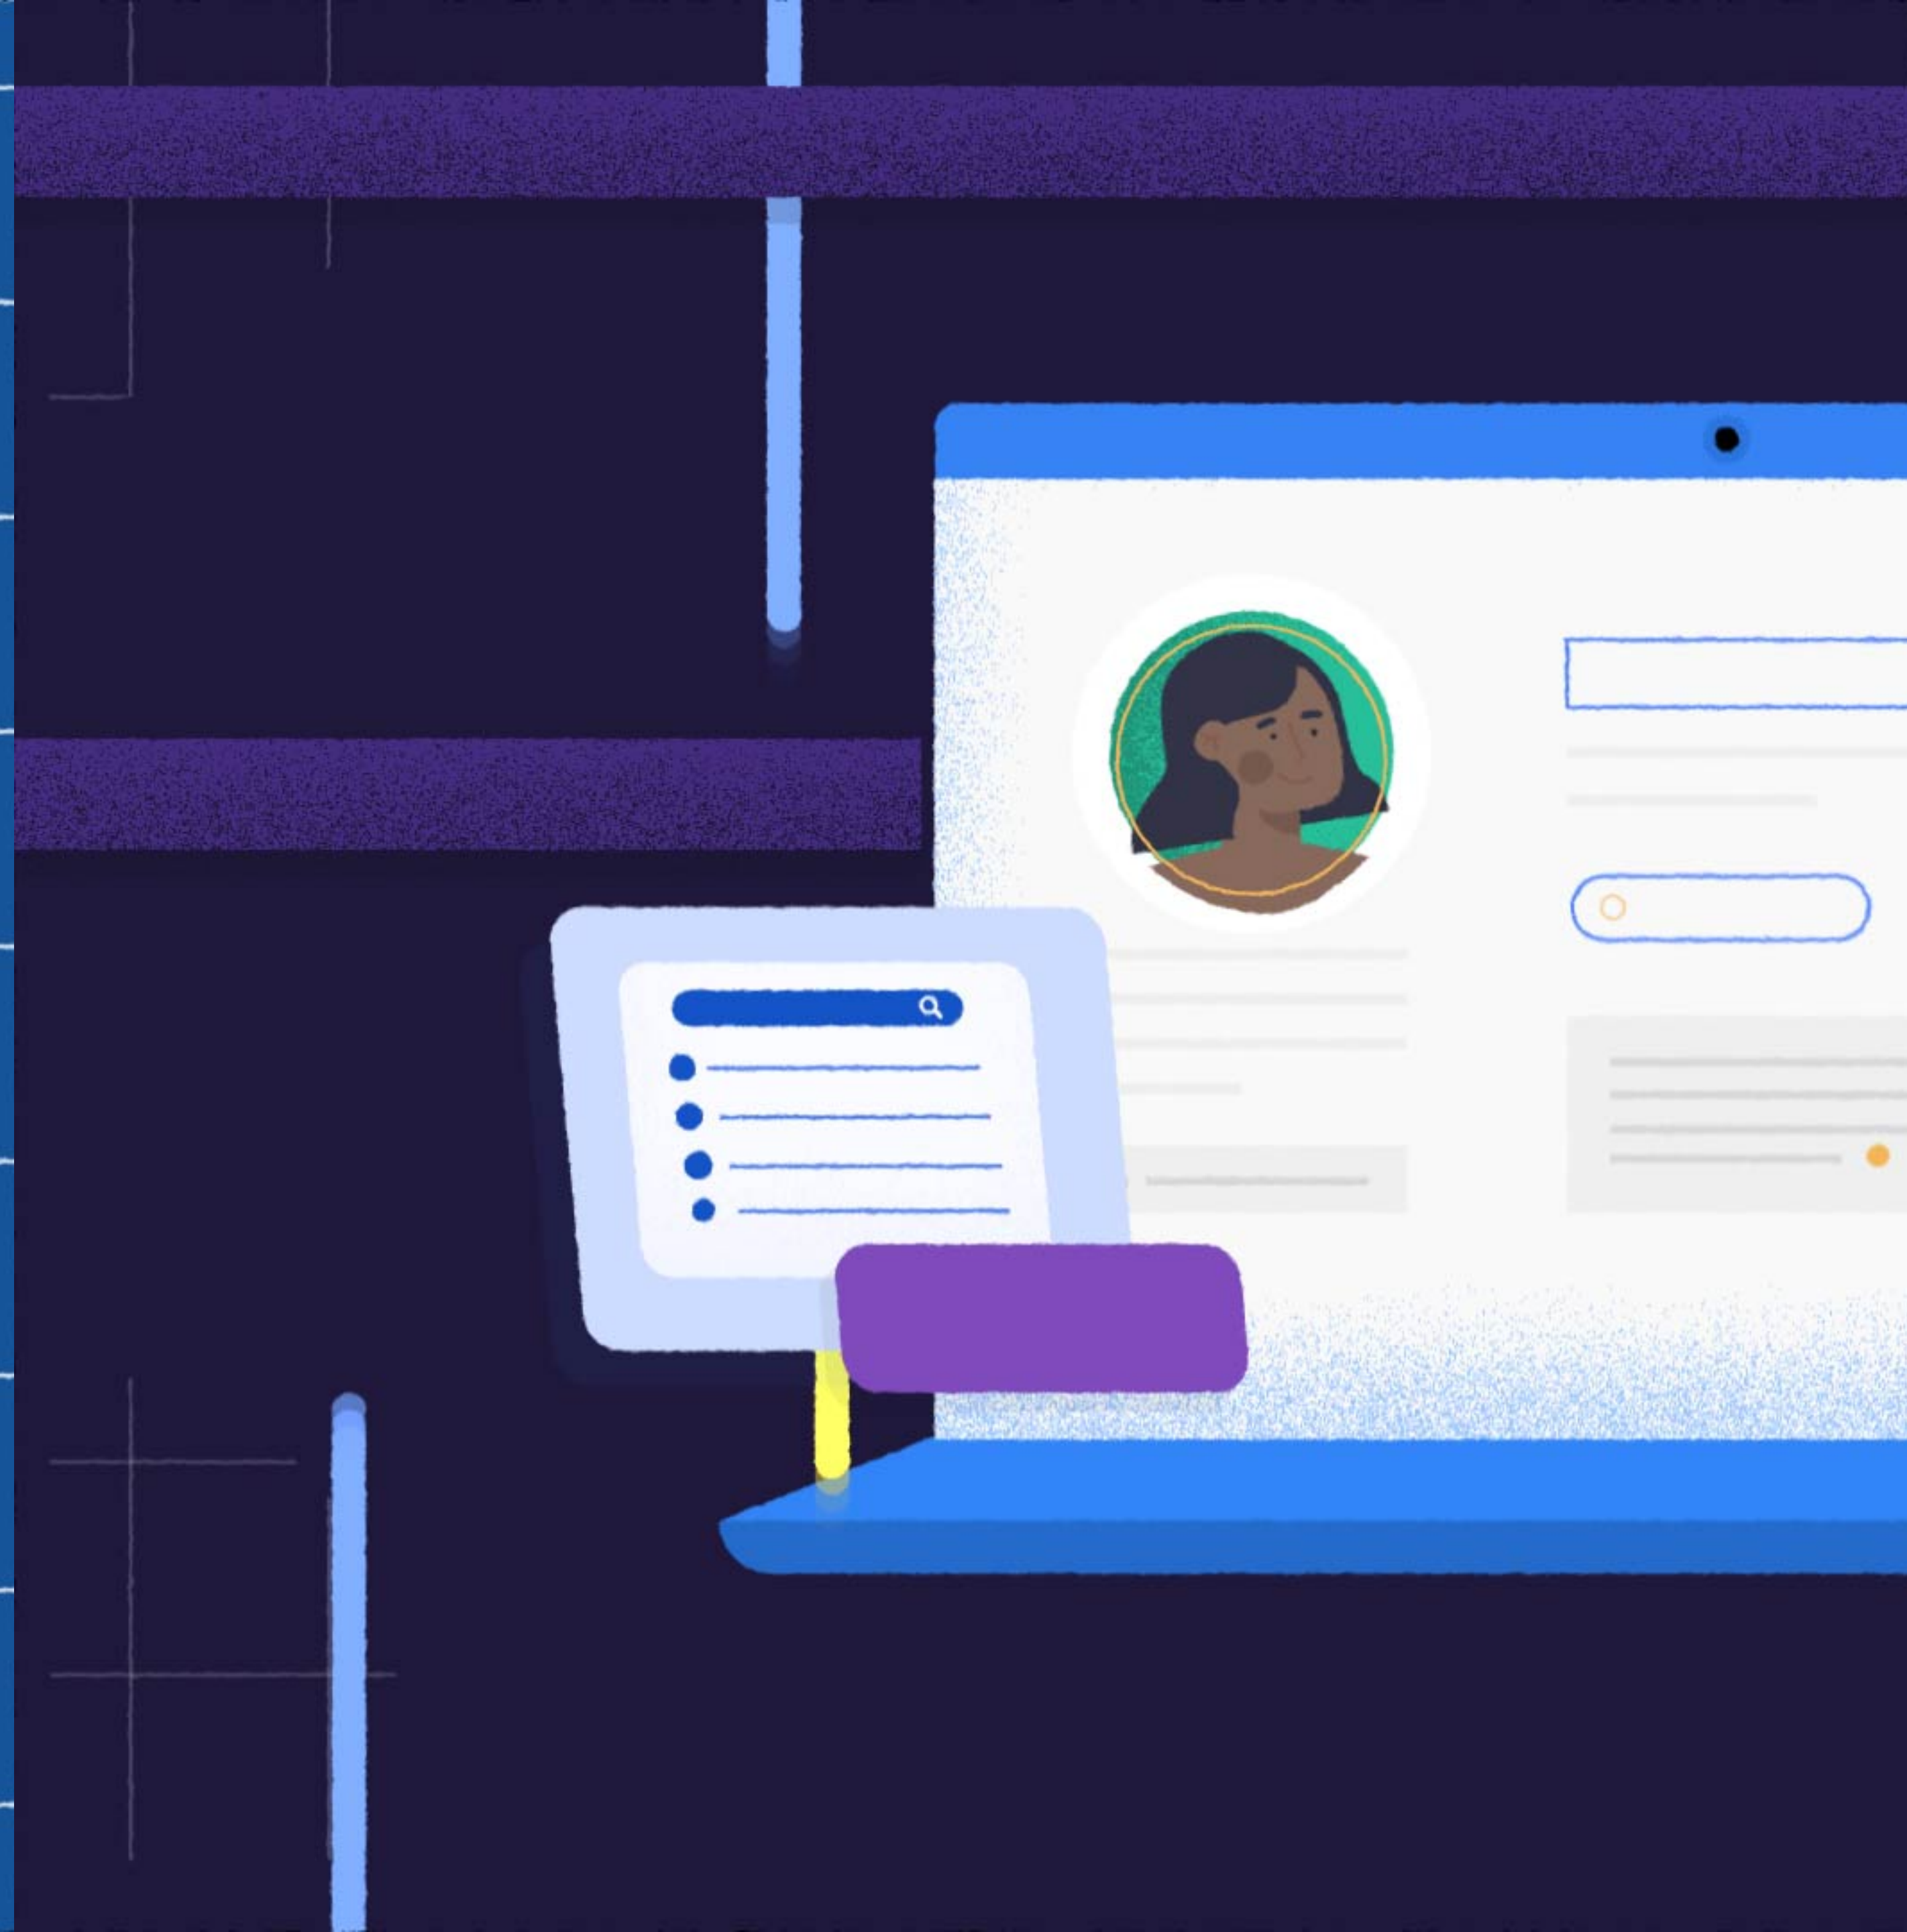

To sync Jira instances

To create custom charts

To integrate external products

To create dashboards

...
